

# RU Solid Waste Management

## What defines solid waste?

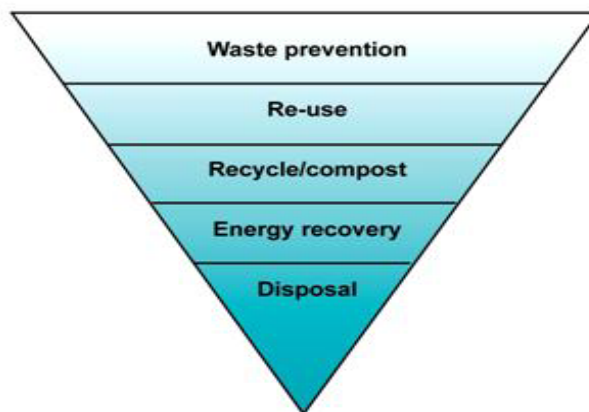

- Any recyclable and non-recyclable item that is discarded into the solid waste stream

## What are some negative aspects of solid waste storage?

- Available landfill space is rapidly depleted
- Greenhouse Gases contribute to Global Warming (Methane & Carbon Dioxide emissions)

## What is the overall goal here?

- Reduce, Reuse, and Recycle! Visit our [website](#) for guidelines, contact info, and current (and archived) solid waste & recycling statistics at RU

Solid Waste Discarded

Solid Waste Transported from RU

Delivered to local landfill
